Md. Fizur Rahman Fahim
Full Stack Developer | Django Backend Specialist
Email: fizurrahman733433@gmail.com
GitHub: github.com/Fizur-Rahman-Fahim

Professional Summary

Motivated Full Stack Developer with a strong foundation in Django-based backend development and a passion for building scalable, secure, and user-friendly web applications. Adept in both frontend and backend technologies, with proven experience leading academic and personal software projects. Skilled in collaborative team environments, with demonstrated leadership as Class Representative and Programming Club Organizing Secretary. Currently enhancing expertise through full stack and AI certifications.

Technical Skills

- **Languages:** Python, JavaScript, Java, C++, C, Matlab

- **Frameworks & Libraries:** Django, React, Bootstrap

- **Databases:** MySQL, PostgreSQL

- **Tools & Platforms:** Git, GitHub, Figma, VS Code

Projects

Automated Stock Analysis Web App

- Developed a Django-based web application that analyzes real-time stock data and generates buy/sell signals.

- Integrated Telegram Bot & Email notifications for alerting users.

Django Telegram Bot

- Built a custom Telegram bot using Django and Python that handles user queries and automates alerts.

Exam Bill Management System

- Designed a web platform for managing exam billing with dynamic student input and report generation.

Library Management System

- Built a robust system to manage books, lending activities, return deadlines, and search functionalities.

Patient Management System

- Created a Django-based platform to track patient visits, treatments, and doctor assignments.

Exam Controller System

- Implemented a dashboard for exam data entry, scheduling, and controller-level operations.
